

**[Our Risk Management Credit Program can save your church 15%  
on your insurance premium!](#)**

**J. Pekala & Associates** is pleased to share with you that GuideOne Insurance has implemented a new program that could **save you up to 15 percent** off your church commercial package policy premium. Through the **SafeChurch Risk Management Credit Program**, customers who have a minimum premium of \$2,500 can experience this savings by simply completing specific risk management assessments and/or training modules on SafeChurch.com. **This program is currently available in Pennsylvania, New Jersey, Maryland and Ohio.**

*SafeChurch* is the most comprehensive Risk Management resource available to churches! *SafeChurch* offers access and in-depth information on church safety topics that you won't find anywhere else. A program like *SafeChurch* could cost your organization over \$150 a year to join. However, if your organization is insured with GuideOne Insurance through our agency, *SafeChurch* is **FREE** to you! If you're not already a member, be sure to join today and begin taking advantage of the many free safety and security resources that are available, such as fact sheets, bimonthly e-newsletters, sample policies and procedures, training modules, risk management assessments and more.

Completing specific risk management assessments and/or training modules on SafeChurch.com to qualify for the insurance premium savings is **FREE**. Once completed, all you need to do is print the certification, sign it, and forward it to our office. We'll handle the rest to get the credit applied to your account. The credit amount you qualify for will be listed on the certificate upon completion. Enclosed are directions for completing the process.

1. Access the *SafeChurch* website at [www.SafeChurch.com](http://www.SafeChurch.com)
2. Choose "**Not a member yet?**" Follow the User Registration Steps to create a username and password.
  - Join using your GuideOne policy number
  - If you have multiple policies with GuideOne choose the "Commercial Package" option.
  - Our agency number is 37475
  - Complete the requested information

Now your organization is ready to use *SafeChurch* as you wish! All churches who register an account on the *SafeChurch* website are assigned an access key. The access key is to be used when additional members of your organization need access to the *SafeChurch* website. The access key number is provided when the main user has completed the set up steps.

One additional word of caution, while most of the information and services are free to our customers, your church should be aware that some product materials would need to be purchased. The program will not allow the user (other than the Administrator) to make purchases! Any individual using the program can purchase items but will need to provide a credit card or choose another form of payment provided at the on-line store.

On behalf of our agency, I hope your church chooses to use *SafeChurch* as a primary source for your church's risk management solutions. *SafeChurch* is just another good example of how our agency provides "*Old Fashioned Customer Service with Modern-day Solutions.*" If you have any questions, you may call our office at 1-888-829-6505.
